## OUR PROMISE TO YOU

EXPERT UNBIASED INFORMATION AND GUIDANCE

### **We Promise**

- To quote you our best price first time.
- To tell you if you have a fair quote from another firm.
- To offer clear, open and honest advice on our high quality products.

### **We Will Never**

- Use high pressure sales tactics or use inflated prices.
- Use cheap inferior materials in our manufacturing & installation processes.

### **Rest Assured**

- Our employees are checked via Disclosure Scotland in line with strict Trading Standards guidelines.

## BESPOKE EXTENSIONS

YOU DREAM IT - WE BUILD IT

If you have bespoke elements you require for your extension, you can speak with our team, we will advise on everything you would need to bear in mind and also how your bespoke adjustments or changes will impact costs & turnaround time.

**“peace of mind with our 10 Year Guarantee”**

## Trading Standards Approved (Buy With Confidence)

Buy With Confidence is a national register of Trading Standards Approved businesses run independently by local authority trading standards departments.

This means we have been vetted and approved and continue to be monitored by a professionally qualified Trading Standards Officer.

Have peace of mind knowing that you are in contact with expert tradesmen, you will always receive honest advice, with no pressure sales and will receive the highest levels

### Which? (Trusted Trader)

“We operate to the highest standards, that’s why we’re endorsed as a **Which?** Trusted Trader”

**Which?** have been testing consumer products and services in the UK for nearly 60 years and now **Which?** are assessing and endorsing local tradesmen giving the general public peace of mind when choosing a company to carry out their home improvements.

**(AI Business Excellence 2016)**

### **Mrs Isobel Dick - Hamilton**

"I am delighted with my new conservatory and porch. The standards of workmanship is excellent and David and his team were, to a man, exceptionally friendly professional and most of all extremely patient and helpful to me.

This was no small feat as making decisions and sticking to them is not one of my strong points.

***"Exceptionally friendly,  
Extremely patient"***

### **Mr McKelvie - Hamilton**

Can't thank them enough..Very happy with our sunroom...Very friendly and helpful...Even my neighbours mentioned how polite the workmen were. Wouldn't hesitate to recommend them.

***"Looks excellent,  
Exactly what we wanted"***

### **Mrs Graham - Airdrie**

Clyde recently built a sunroom extension for us which we use as a playroom for our young son. The playroom looks excellent, well insulated, heated & lovely light and airy exactly what we wanted. We recently had a neighbour chap our door looking for the company contact details as they were so impressed with the build quality highly recommended.

***"Well Insulated, Heated & Lovely.  
Highly Recommended "***

### **Louise Barry - Motherwell**

"We decided to get Clyde windows to extend our house as they have carried out several extensions and other areas of work for family members. The work was exemplary and we felt, on this basis they had our trust. From start to finish everything was fantastically well planned. Every aspect of the build was smoothly and exceptionally cleanly carried out. The finished result is absolutely fantastic and has given much more liveable space.

***"They had our trust, from start to finish  
everything was fantastically  
well planned."***

### Price:

Be cautious of really low priced quotes, price is not always a reliable indicator of value for money, always find out more about how the company tendering for your business keeps cost down. When you receive higher end quotes try to find out more information about the quality of materials being used and where they are sourced from.

We always give our lowest and fair quote first time round, we are able to keep your costs to a minimum as we operate our own manufacturing plant for UPVC windows, doors & conservatories. We have our own in house General Builders, Electricians, Joiners, Plasterers & Plumbers, we rarely have to subcontract any work in a project . This keeps your costs to a minimum and ensures that work is carried out to our highest standards.

### Credentials:

All our Builders, Electricians, Joiners, Plasterers & Plumbers hold the appropriate and up to date certifications required for their trade, ensuring you and your families safety and giving you peace of mind while we work on your project with a team of fully qualified tradesmen.

As part of our recruitment process, we carry out thorough background checks and all our field employees have had a full disclosure Scotland report carried out before employment.

### Reputation:

We have a solid reputation for our high standards and value for money, but don't just take our word for it; see some of our reviews below or visit our website to see all our customer testimonials.

#### **My family and I are over the moon with our new extension.**

I cant thank you all enough with all your invaluable help and support you gave me from planning this project through to the finished result. Your advice from surveyors & architects was spot on, your builders did an excellent job very fast with very little involvement from me.

**Source - W. Gordon Glasgow 07/09/2016- [buildscotland.co.uk](http://buildscotland.co.uk)**

#### **The work was completed to a high standard on time and for the agreed price.**

Everyone I dealt with in this company was pleasant and knowledgeable. The tradesmen all were well turned out, started work on arrival and didn't stop until the work was completed, the rooms cleared up and vacuumed.

**Source - Robert 09/10/2016 - [trustedtraders.which.co.uk](http://trustedtraders.which.co.uk)**

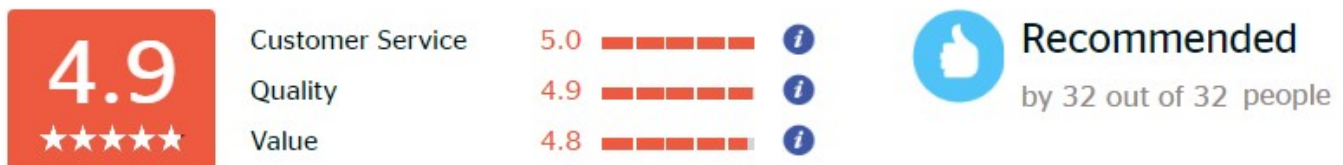

#### **I would like to record my gratitude for the work your company completed.**

I am delighted with my new conservatory and porch. The standards of workmanship is excellent and David and his team were, to a man, exceptionally friendly professional and most of all extremely patient and helpful to me.

This was no small feat as making decisions and sticking to them is not one of my strong points
